

**MEMORIES** from Agnes Wolfe: Agnes Wolfe of Columbus, Ohio has many fond memories of her days at E.L.T.S. in 1937-38-39. She wonders if anyone remembers where registration took place before the Administration Building was constructed in 1938. At registration campers were expected to step on a freight scale where they weighed in upon their arrival and before their departure. Agnes recall a weight gain of six pounds during one E.L.T.S. week. Mmmm Mmmm. That Dining Hall food sure was tasty!

Agnes can still sing all the words of songs she remembers from those years: "Follow the Gleam", "The Old Arks a Moverin" lead by Hap Pflug in the Dining Hall. Memories of Reine Krause: "quite a leader ....and handsome to boot!"

Does anyone else still remember?

-- standing outside the cabins singing Taps at night. First the line, then the center circle, then the far circle.

-- the "Dean" checking cabins

-- cabin walls that were only partial...they didn't reach to the ceiling

-- no hot water in the cabins until the 1950's

-- the old snack bar and the two gazebos

What woman would not remember her first kiss? Picture a romantic stroll through the woods at Dunkirk. Agnes recalls a very handsome and mannerly Eddie Steger asking if he might kiss her. Sadly, her first love was lost at seas during World War II.

Agnes returned to Dunkirk for many years of Family Camp. She always looked forward to passing through the stone pillars that still remind us to "Enter to Learn. Depart to Serve"
