

Instructions for creating a Campminder Camp Account

- Select Register a New Camper. Follow the instructions and submit your registration.
- If you make a credit card payment when you create your account, you must enter your card information and then submit the payment.
- Payments do not automatically charge and they do not pay off your balance unless you submit a payment for it. Your credit card will not show this transaction until after the Camp Manager enrolls your child. This is done after you register, usually within 1-2 days.
- You will receive an email once your child is enrolled and your payment has been processed.
- Once you have set up your account and registered for the first time, you will access your new account by selecting Login/Register.

If you have questions or concerns, please call our office @ 716-366-1900.
